AMERICAN LIFE INSURANCE COMPANY (METLIFE NEPAL) — BASE POLICY TERMS

HEALTH BENEFIT POLICY (DERIVED FROM METLIFE)

Restructured Standard Health & Inpatient Benefit Contract — ClaimSetu Specification

PROTOTYPE DOCUMENTATION NOTICE: This document represents a restructured, atomic policy specification derived from the American Life Insurance Company (MetLife Nepal) "Life Shield" policy contract and associated supplementary riders (Forms 60-F, 67-A, 61-A, 67-B, 77-D). All application signature blocks, company seals, and administrative blank forms have been excised to begin directly with substantive contractual provisions. This document is formulated for ClaimSetu automated claims evaluation testing and does not constitute an official commercial offering.

PART I — GENERAL CONTRACT PROVISIONS

STANDARD PROVISIONS

1. Consideration & Entire Contract: This Policy, together with the Schedule of Benefits and approved Endorsements, constitutes the entire contract between the Company and the Insured. All indemnities are payable strictly in consideration of the advance payment of stipulated premium and subject to the terms, limitations, and exceptions herein contained.

2. Policy Inception & Effective Date: Insurance coverage takes effect at 12:01 A.M. standard time at the residence of the Insured on the Effective Date stated in the Schedule of Benefits. The policy remains in force until the stipulated Renewal Date, subject to the Grace Period.

3. Grace Period: A grace period of thirty-one (31) calendar days is granted for the payment of each renewal premium falling due after the initial premium. During this period, the policy continues in full force, provided that any unpaid premium due is deducted from any benefit payable during the grace period.

4. Notice of Claim: Written notice of claim must be furnished to the Company within ten (10) calendar days from the commencement of hospital confinement or occurrence of loss, or as soon thereafter as is reasonably possible.

PART II — DEFINITIONS

CONTRACT DEFINITIONS

1. Insured: The eligible person named in the Schedule who has attained at least eighteen (18) years of age and not more than fifty-nine (59) years of age on the Effective Date of this Policy. EXECUTABLE

2. In-Patient: A person who is formally admitted to a licensed Hospital as a registered bed patient and continuously confined for a minimum duration of at least twenty-four (24) consecutive hours. EXECUTABLE

3. Sickness: Any disease or pathological illness first manifested, contracted, and commencing after the active Coverage Commencement Date of this policy. EXECUTABLE

4. Injury: Accidental bodily trauma occurring while this policy is in force, effected solely and directly by external, violent, and accidental means evidenced by visible contusion or wound, independent of all other causes. TEXT REFERENCE

5. Pre-Existing Condition: Any physical condition, disorder, or symptom for which medical advice, diagnosis, care, or treatment was received, or for which a physician was consulted at any time prior to the Effective Date or Reinstatement Date. EXECUTABLE

6. Hospital: An institution legally licensed as a hospital which operates primarily for the inpatient reception, care, and medical treatment of ailing or injured persons; maintains 24-hour graduate nursing services; has licensed physicians available at all times; possesses organized diagnostic and major surgical operating facilities; and is not primarily a clinic, rest home, sanatorium, or substance rehabilitation center. TEXT REFERENCE

7. Medical Necessity: Hospital confinement, care, or surgical procedure certified by the attending Physician confirming that safe and efficacious medical treatment could not have been provided on an outpatient basis. TEXT REFERENCE

8. Policy Year & Currency: A period of three hundred sixty-five (365) consecutive days commencing on the Effective Date. All financial benefits, sub-limits, and deductibles are expressed in Nepalese Rupees (NPR). EXECUTABLE

AMERICAN LIFE INSURANCE COMPANY (METLIFE NEPAL) — BASE POLICY TERMS

HEALTH BENEFIT POLICY (DERIVED FROM METLIFE)

Eligibility, Inpatient Confinement, and Surgical Schedules

PART III — ELIGIBILITY & TERMINATION

COVERAGE TERMS

1. Entry Age Limits: Coverage may only be effected for persons between the ages of eighteen (18) and fifty-nine (59) completed years on the Effective Date.

2. Age Expiration: Inpatient surgical expense and sickness hospitalization benefits terminate automatically when the Insured attains sixty-five (65) years of age. Accidental death, dismemberment, and medical expense reimbursements terminate upon attaining seventy (70) years of age.

PART IV — INPATIENT HOSPITALIZATION BENEFITS

HOSPITALIZATION

1. Inpatient Indemnity: When an Insured is confined within a licensed Hospital as a registered In-Patient for medical necessity under continuous physician care, the Company reimburses room, board, and hospital nursing expenses subject to the applicable sub-limits.

2. Room & Board Daily Limit: Eligible room and board charges are covered up to a daily limit equal to the lower of: (a) NPR 5,000 per day; or (b) 1.0% of the Hospitalization Sum Insured per day.

3. Intensive Care Unit (ICU) Sub-Limit: Medically necessary confinement in an Intensive Care Unit is covered up to a daily limit of NPR 10,000 per day.

4. Maximum Confinement Period: Daily hospital income or confinement indemnity is payable for a maximum aggregate duration of fifty-two (52) weeks (364 calendar days) per policy year.

PART V — IN-HOSPITAL SURGICAL EXPENSE BENEFITS

SURGICAL COVERAGE

1. Surgical Procedure Indemnity: When an Insured undergoes a surgical operation performed by a licensed surgeon during covered hospital confinement, the Company reimburses the surgeon's fee, anesthetist's fee, and operating room rent, up to the Percentage of Maximum Surgical Benefit set forth in the Surgical Schedule below.

Description of Surgical Procedure	Scheduled %	Payable Ceiling (NPR 200,000 Max)
Coronary Artery Bypass / Open Heart Surgery	100.0%	NPR 200,000
Craniotomy (Cutting into cranial cavity)	100.0%	NPR 200,000
Radical Mastectomy / Thyroidectomy (Goiter)	75.0%	NPR 150,000
Laminectomy / Resection of Stomach or Bowel	75.0%	NPR 150,000
Hysterectomy (Radical or with oophorectomy)	62.5%	NPR 125,000
Cataract Extraction / Radical Mastoidectomy	50.0%	NPR 100,000
Single Hernia Repair (Radical) / Appendectomy	37.5% / 25.0%	NPR 75,000 / NPR 50,000
Diagnostic / Operative Bronchoscopy or Endoscopy	12.5%	NPR 25,000
OBSTETRICAL PROCEDURES (Cesarean / Delivery)	0.0% (None)	Excluded (NPR 0)

2. Surgical Session Rule: If multiple surgical procedures are performed during the same operative session, the indemnity payable shall be restricted solely to the highest percentage applicable among the procedures performed.

3. Annual Procedure Frequency: Benefit in respect of any covered surgical procedure is payable only once during any single Policy Year.

4. Annual Surgical Aggregate Ceiling: Total surgical indemnities paid within any single Policy Year shall not exceed two hundred percent (200% / double) of the Maximum Surgical Benefit (NPR 400,000).

AMERICAN LIFE INSURANCE COMPANY (METLIFE NEPAL) — BASE POLICY TERMS

HEALTH BENEFIT POLICY (DERIVED FROM METLIFE)

Waiting Periods, Exclusions, Deductibles, and Schedule of Specifications

PART VI — WAITING PERIODS & ELIMINATION

TEMPORAL BOUNDS

1. Initial Sickness Waiting Period: Coverage for Sickness becomes effective on the thirty-first (31st) day following the Policy Effective Date or Reinstatement Date. No benefits are payable for any illness contracted or manifested during the initial 30 days. Accidental injuries carry zero (0) waiting days.

2. Specific Named Ailments Waiting Period: Hospital confinement or surgical treatment for tonsils, adenoids, hernia, or intervertebral disc disease is excluded until the Insured has been continuously covered under this policy for at least one hundred twenty (120) days immediately preceding confinement.

3. Confinement Elimination Period: The first one (1) day (24 hours) of hospital confinement due to Sickness constitutes an Elimination Period for which daily benefit is not payable.

PART VII — GENERAL EXCEPTIONS & CARVE-OUTS

EXCLUSIONS

1. Pre-Existing Conditions: Pre-existing medical conditions, diagnosed or treated prior to the Effective Date, are strictly excluded from coverage.

2. Cosmetic & Plastic Surgery: Cosmetic or plastic surgery is excluded, except when necessitated solely by an Accidental Bodily Injury occurring while this policy is in force.

3. Dental Care & Surgery: Dental care, fillings, or oral surgery are excluded, except when treatment is required for damage to sound natural teeth caused directly by an Accidental Bodily Injury.

4. Maternity & Obstetrical Care: Hospital confinement or surgical treatment resulting directly or indirectly from pregnancy, childbirth, miscarriage, abortion, or related complications is excluded. The obstetrical schedule percentage is explicitly None (0%).

5. Hazardous Sports & Alternative Medicine: Excluded are injuries sustained during competitive racing, mountaineering, potholing, paragliding, bungee jumping, parachuting, scuba diving; stays in sanatoriums; and treatments in Ayurvedic, herbal, or acupuncture facilities.

PART VIII — ACCIDENT MEDICAL EXPENSE & COORDINATION

MEDICAL REIMBURSEMENT

1. Medical Expense Deductible: Accident medical expense reimbursement is subject to a deductible of NPR 500 per claim. The Company reimburses eligible expenses in excess of NPR 500 up to NPR 50,000.

2. Non-Duplication: If the Insured is entitled to reimbursement under any statutory scheme or other insurance, the Company is liable only for the excess non-reimbursed reasonable charges.

PART IX — SCHEDULE OF POLICY SPECIFICATIONS (MVP VALUES)

BENEFIT SCHEDULE

Benefit Parameter	MVP Illustrative Limit	Execution Classification	Source Basis
Hospitalization Sum Insured (Annual)	NPR 500,000	EXECUTABLE	Part I / Sched (p. 10)
Daily Room & Board Limit	Lesser of 1% SI or NPR 5,000	EXECUTABLE	Form 67-A/B (p. 6, 15)
Intensive Care Unit (ICU) Daily Limit	NPR 10,000 per day	EXECUTABLE	MVP Standard Schedule
Maximum Surgical Benefit (Base)	NPR 200,000 per procedure	EXECUTABLE	Form 77-D (p. 20)
Annual Surgical Aggregate Ceiling	NPR 400,000 (200% Max Benefit)	EXECUTABLE	Form 77-D (p. 20)
Accident Medical Expense Limit	NPR 50,000 per accident	EXECUTABLE	Form 61-A (p. 8)
Medical Expense Deductible	NPR 500 per claim	EXECUTABLE	Form 61-A (p. 8)

OUTPUT 2: MACHINE-EVALUABLE RULE INVENTORY

HIPML Transformation Rules — Group 1: Inception, Eligibility & Sub-Limits (R01 to R07)

Each substantive policy provision has been converted into an atomic, deterministic rule for machine evaluation. Rules specify required claim input variables, mathematical bounds, and original MetLife policy citations.

R01: Policy Active on Hospitalization Date EXECUTABLE_RULE

```
Hospitalization_Start_Date >= Policy_Inception_Date and Hospitalization_Start_Date <= Policy_Expiry_Date
```

Variables: Hospitalization_Start_Date, Policy_Inception_Date, Policy_Expiry_Date | **Source:** Part V, Clause 3 (p. 10) | **Assumption:** No

R02: Insured Age at Inception Bound EXECUTABLE_RULE

```
Patient_Age >= 18 and Patient_Age <= 59
```

Variables: Patient_Age | **Source:** Part I, Definitions (p. 10) | **Assumption:** No

R03: Sickness Initial 31-Day Waiting Period EXECUTABLE_RULE

```
if not Is_Accidental_Injury then (Hospitalization_Start_Date - Policy_Inception_Date) >= 31
```

Variables: Is_Accidental_Injury, Hospitalization_Start_Date, Policy_Inception_Date | **Source:** Form 67-B / Form 77-D (p. 15, 20) | **Assumption:** No

R04: Minimum Inpatient Confinement (24 Hours) EXECUTABLE_RULE

```
Hospitalization_Days >= 1 or Hospitalization_Hours >= 24
```

Variables: Hospitalization_Days, Hospitalization_Hours | **Source:** Form 67-A / Form 67-B (p. 6, 15) | **Assumption:** No

R05: Daily Room & Board Sub-Limit EXECUTABLE_RULE

```
Allowed_Daily_Room = min(Amt(5000), 0.01 * Var(Sum_Insured)); Payable_Room = min(Room_Charge_Per_Day, Allowed_Daily_Room)
```

Variables: Room_Charge_Per_Day, Sum_Insured | **Source:** Form 67-A / Form 67-B (p. 6, 15) | **Assumption:** Yes (NPR 5,000 & 1% cap)

R06: Daily Intensive Care Unit (ICU) Sub-Limit EXECUTABLE_RULE

```
if Is_ICU then Allowed_Daily_ICU = Amt(10000); Payable_ICU = min(ICU_Charge_Per_Day, Allowed_Daily_ICU)
```

Variables: Is_ICU, ICU_Charge_Per_Day | **Source:** Standard Specification Schedule | **Assumption:** Yes (NPR 10,000 cap)

R07: Surgical Benefit Scheduled Percentage Limit EXECUTABLE_RULE

```
Payable_Surgical = min(Actual_Surgical_Charge, (Surgical_Schedule_Percent / 100) * Max_Surgical_Benefit)
```

Variables: Actual_Surgical_Charge, Procedure_Code, Surgical_Schedule_Percent, Max_Surgical_Benefit | **Source:** Form 77-D (p. 20-21) | **Assumption:** Yes (NPR 200,000 base)

CLAIMSETU AUTOMATED HEALTH ADJUDICATION ENGINE

OUTPUT 2: MACHINE-EVALUABLE RULE INVENTORY (CONT.)

HIPML Transformation Rules — Group 2: Exclusions & Deductibles (R08 to R15)

R08: Annual Surgical Aggregate Ceiling EXECUTABLE_RULE

```
Total_Annual_Surgical_Paid + Current_Surgical_Claim <= 2.0 * Max_Surgical_Benefit
```

Variables: Total_Annual_Surgical_Paid, Current_Surgical_Claim, Max_Surgical_Benefit | **Source:** Form 77-D (p. 20) | **Assumption:** No

R09: Named Ailments 120-Day Waiting Period EXECUTABLE_RULE

```
if Diagnosis_Code in ["HERNIA", "TONSIL", "ADENOID", "DISC_DISEASE"] then Consecutive_Covered_Days >= 120
```

Variables: Diagnosis_Code, Consecutive_Covered_Days | **Source:** Form 67-B Exp 7 / Form 77-D Exp 1 (p. 15, 20) | **Assumption:** No

R10: Pre-Existing Condition Exclusion EXECUTABLE_RULE

```
if Is_Pre_Existing_Condition == true then Claim_Payable_Amount = 0
```

Variables: Is_Pre_Existing_Condition | **Source:** Part III Clause 1(d) (p. 10) | **Assumption:** No

R11: Cosmetic Surgery Carve-Out EXECUTABLE_RULE

```
if Is_Cosmetic_Procedure == true and Is_Accidental_Injury == false then Claim_Payable_Amount = 0
```

Variables: Is_Cosmetic_Procedure, Is_Accidental_Injury | **Source:** Form 77-D Exp 4(c) (p. 20) | **Assumption:** No

R12: Dental Surgery Carve-Out EXECUTABLE_RULE

```
if Is_Dental_Procedure == true and (Is_Accidental_Injury == false or Sound_Natural_Teeth == false) then
Claim_Payable_Amount = 0
```

Variables: Is_Dental_Procedure, Is_Accidental_Injury, Sound_Natural_Teeth | **Source:** Form 61-A Exp 2 (p. 8) | **Assumption:** No

R13: Maternity / Obstetrical Exclusion EXECUTABLE_RULE

```
if Is_Maternity_Claim == true or Svc(OBSTETRICAL) == true then Claim_Payable_Amount = 0
```

Variables: Is_Maternity_Claim | **Source:** Form 67-A Exp 2, Surgical Sched (p. 6, 21) | **Assumption:** Yes (Absolute exclusion)

R14: Accident Medical Expense Deductible EXECUTABLE_RULE

```
Payable_Accident_Medical = max(0, min(Claim_Billed_Amount, Amt(50000)) - Amt(500) -
Other_Insurance_Recoverable)
```

Variables: Claim_Billed_Amount, Other_Insurance_Recoverable | **Source:** Form 61-A Benefits (p. 8) | **Assumption:** Yes (NPR 500 & NPR 50,000)

R15: Written Notice of Claim Timeline EXECUTABLE_RULE

```
(Claim_Submission_Date - Hospitalization_Start_Date) <= 10
```

Variables: Claim_Submission_Date, Hospitalization_Start_Date | **Source:** Part V, Clause 6 (p. 10) | **Assumption:** No

OUTPUT 3: CLAIM INPUT VARIABLE CATALOG

Controlled Data Dictionary and Claim Binding Mappings

To maintain separation between raw claim submissions and machine evaluation rules, the ClaimSetu engine extracts incoming bill line items, discharge records, and clinical diagnoses into a standardized variable catalog.

Variable Name	Type	Claim Data JSON Path	Req?	Semantic Definition & Adjudication Role
Sum_Insured	number	`policy.sumInsured`	Yes	Annual inpatient benefit ceiling in NPR (> 0)
Policy_Inception_Date	date	`policy.inceptionDate`	Yes	Policy commencement date (ISO 8601: YYYY-MM-DD)
Policy_Expiry_Date	date	`policy.expiryDate`	Yes	Policy expiration timestamp (12:01 AM local)
Patient_Age	number	`insured.age`	Yes	Age in completed years on inception date [18–59]
Hospitalization_Start_Date	date	`hospitalization.admissionDate`	Yes	Formal hospital admission timestamp
Discharge_Date	date	`hospitalization.dischargeDate`	Yes	Formal hospital discharge timestamp
Hospitalization_Days	number	`hospitalization.totalDays`	Yes	Count of 24-hour confinement periods (integer >= 1)
Room_Charge_Per_Day	number	`bills.roomRatePerDay`	Yes	Billed room & board rate per day in NPR
Is_ICU	boolean	`hospitalization.isIcuStay`	Yes	Indicates confinement in Intensive Care Unit
ICU_Charge_Per_Day	number	`bills.icuRatePerDay`	No	Billed ICU daily rate in NPR (evaluated if Is_ICU is true)
Diagnosis_Code	string	`diagnosis.icd10Code`	Yes	ICD-10 clinical diagnosis identifier (e.g., K40.9, J35.0)
Procedure_Code	string	`procedure.cptCode`	No	Surgical procedure code for schedule percentage lookup
Is_Accidental_Injury	boolean	`claim.isAccident`	Yes	True if trauma caused by external violent bodily injury
Is_Maternity_Claim	boolean	`claim.isMaternity`	Yes	True for childbirth, caesarean, or obstetrical cases
Is_Cosmetic_Procedure	boolean	`procedure.isCosmetic`	Yes	True for plastic/aesthetic interventions
Claim_Submission_Date	date	`claim.submittedDate`	Yes	Date notice/proof of loss formally submitted to insurer
Claim_Billed_Amount	number	`bills.totalBilled`	Yes	Total itemized billed charges submitted in NPR

CLAIMSETU AUTOMATED HEALTH ADJUDICATION ENGINE

OUTPUT 4: CONVERSION NOTES & ARCHITECTURAL TRACEABILITY

Clause Classification, MVP Value Assumptions, and Grammar Compatibility

1. CLAUSE CLASSIFICATION & TRACEABILITY SUMMARY

CLASSIFICATION

A. Converted to Executable Rules (15 Atomic Clauses): Encoded into rules R01 through R15. Covers temporal inception (Part V, Cl 3), age qualification (Part I), initial 31-day sickness waiting period (Form 67-B), 120-day specific ailments waiting period (Form 77-D), room and board limits (Form 67-A/B), surgical schedule reimbursement (Form 77-D), and conditional exceptions for cosmetic and dental procedures.

B. Retained as Text References (18 Contextual Clauses): Preserved for evidentiary citation during claims audit. Includes the legal definitions of Hospital and Physician, external contusion requirement for Accidental Injury, war/terrorism exclusions, sanity clauses, and statutory discharge provisions under Section 38 of the Nepal Insurance Act, 2049.

C. Marked for Manual Review (4 Complex Clauses): Clauses whose administrative logic exceeds deterministic rules: Part V Clause 14 (Misstatement of Age premium re-computation), Part V Clause 16 (Change of Occupation hazard classification adjustments), and Part V Clause 18.2 (US/Non-US status verification and FATCA paid-up cancellations).

2. DOCUMENTED MVP ASSUMPTIONS & CONCRETE VALUES

TEST ASSUMPTIONS

In the source MetLife contract, benefit limits in the Schedule of Benefits are marked with blank form placeholders (XXXXX). For this prototype, the following concrete illustrative values in Nepalese Rupees (NPR) are established:

- **Hospitalization Sum Insured:** NPR 500,000 annual aggregate limit.
- **Room & Board Limit:** Lower of NPR 5,000 per day or 1.0% of Sum Insured per day.
- **ICU Benefit Limit:** NPR 10,000 per day for intensive care confinement.
- **Maximum Surgical Benefit:** NPR 200,000 base procedure limit (annual aggregate cap: NPR 400,000).
- **Accident Medical Expense:** NPR 50,000 limit per accident with an NPR 500 deductible per claim.
- **Maternity & Obstetrical Care:** Excluded with 0% benefit, directly reflecting the source Surgical Schedule specification (*"OBSTETRICAL: None"*, p. 21).

3. STRUCTURAL SIMPLIFICATIONS & RULE ATOMICITY

SIMPLIFICATIONS

- **Cosmetic & Dental Carve-Outs:** The source policy excludes cosmetic and dental care in general, but carves out an exception when required solely for accidental bodily injuries to sound natural teeth or tissues. Rather than dropping the exception, rules R11 and R12 implement atomic compound conditions (e.g., `Is_Cosmetic and not Is_Accident -> Reject`).
- **Named Ailment Waiting Periods:** Sickness carries a general 31-day waiting period, while Form 77-D specifies a 120-day waiting period for hernia, tonsils, adenoids, and disc disease. In the rule engine, this is handled via an explicit ICD-10 diagnosis group match rule (R09).

4. HIPML 0.1 GRAMMAR COMPATIBILITY EVALUATION

GRAMMAR COMPATIBILITY

- **Directly Supported:** Date comparisons (`Hospitalization_Start_Date >= Policy_Inception_Date`), day difference arithmetic, comparison operators (`<=, >=, ==`), sub-limits using `min(...)`, and array membership testing (`Diagnosis_Code in [...]`) map directly onto HIPML 0.1 primitives.
- **Lookup Mapping:** The Surgical Schedule contains 70+ procedures. In HIPML 0.1, this is represented by an external lookup function `Surgical_Schedule_Percent = Lookup(Procedure_Code)` to ensure rule atomicity and execution speed.
